

REVAMPED ARTICLE X HANDED WILSON BY PARTY LEADERS

DEMOCRATS HOPE TO AVERT AN
OTHER DEADLOCK ON TREATY
BY WINNING PRESIDENT'S CON-
SENT TO REVISION IN DIS-
PUTED SECTION OF PEACE
PACT.

(By the Associated Press.)

Washington, March 6.—Hoping to
avert another deadlock, Democratic
senators yesterday sought to lay di-
rectly before President Wilson the latest
proposals discussed as a possible
compromise basis on article 10 of the
peace treaty.

While reconsideration of the treaty
has been proposed in the Senate,
senators yesterday sought to lay di-
rectly before President Wilson the latest
proposals discussed as a possible
compromise basis on article 10 of the
peace treaty.

These proposals are the result of con-
ference with the President's article 10
reservation so that military
force and other specific agencies
would be named as means which the
United States would decline to use to
preserve the integrity of other league
members.

The move for a conference with the
President is said to have grown out of
negotiations which have been in
progress several days under the
charge of Senator Chamberlain, Democ-
rat, North Carolina, for the Demo-
cratic side, and Senator Watson, Rep-
ublican, Indiana, for the Republic-
ans.

Senator Hitchcock is understood to
have suggested in his letter that the
President see Senator Simmons be-
fore the article 10 reservation comes
to another vote.

A new reservation designed to pre-
vent further extension of credit to
foreign governments without con-
gressional action was introduced yester-
day by Senator Knox. It provides
that the credit of the United States
shall not be pledged until Congress
has affirmatively given authority.

The reservation declaring the reser-
vations commission shall not inter-
fere with trade between the United
States and Germany except with the
consent of this country was readopted
without change yesterday by a
vote of 41 to 22. Six Democrats, Sen-
ators Chamberlain of Oregon, Gore of
Oklahoma, Nugent of Idaho, Reed of
Missouri, Shields of Tennessee, and
Smith of Georgia, supported it, a gain
of one Democratic vote over last No-
vember, when the reservation was
adopted, 34 to 19.

Before the roll call yesterday Sen-
ator Hitchcock made an effort to mod-
ify the reservation so that it would
declare there could be no discrimina-
tion against the United States, but
this amendment was voted down, 23
to 37, the Republicans standing in
favor against it.

UNCLE SAM'S THRIFT GARDEN INFORMATION

Washington, March 6.—One way of
reducing the cost of living is open to
every man, woman and child who can
get the use of an idle lot of ground.
That way lies through the planter
and cultivation of a home garden—a
thrift garden. War gardens played
their part in the great mobilization of
resources in war time—thrift gardens
now have their own big job in helping
households to feed themselves.

The reasons for thrift gardens are
many and varied. The same reasons
that existed last year and the year
before still are present. Thrift
gardens will produce food where noth-
ing otherwise would be produced;
they will reduce family food bills; they
will return abundantly in proportion
to the time and effort devoted to
them. But added to these reasons is
another one peculiar to this year.

Reports to the United States de-
partment of agriculture indicate that
the plantings are commercial, com-
munity gardens will be materially re-
duced this year, because the commer-
cial gardeners see no way of obtain-
ing enough labor to conduct their
usual operations. The commercial
gardeners claim that they have paid
high wages in endeavors to keep up
production, but now have the point
where the returns will not justify the
continuance of this expense. At least
that is the report reaching the de-
partment of agriculture from seed
merchants, whose operations at this
season are regarded as a good indica-
tion of what conditions will be a
month or two from now.

If the reduction of commercial gar-
dening becomes a fact, the obvious
result will be fewer vegetables and
higher prices. The logical remedy
lies partly in home gardens. There
is a remedy, moreover, that will cost
no harm even if the commercial gar-
dening should be up to normal, as any
surplus of fresh vegetables may be
saved by canning, drying and other
means of conservation and the sur-
plus kept so that it will be useful next
fall and winter.

Thousands of families learned the
value of home gardens in war time.
United States department of agricul-
ture specialists believe it essential
that these families interest be main-
tained and that other thousands be

Future Americans Cheer Their New Land

ELLIS ISLAND—With the going back to peace-time organization, all immigrants wishing to make America their home, will be examined at the station. The new tests are likely to reduce the numbers admitted. Immigrants are being attracted to the United States by the sound conditions and the high salaries paid to the laboring class. Above picture shows some future Americans who are cheering, following the official word that allows them to enter this country.

Added to home food producers.

"Now is the time to begin making
plans for your 1920 thrift garden,"
these specialists declare. "First, lo-
cate a piece of suitable land; second,
make your plan; third, get your seeds;
fourth, start work at the earliest pos-
sible moment."

A request to the United States de-
partment of agriculture, Washington,
D. C., will bring a booklet that will
tell how to plan your garden, how
much seed to buy, how to get the land
in shape for cultivation, how to take
every other step in the process of
making your back yard or some other
vacant lot help feed you.

Many Accidental Drownings.

"Accidental drowning" caused 5,579
deaths, or 7.4 per 100,000, in this coun-
try last year. This rate is considerably
less than that for any preceding
year since 1910, and is also decidedly
below the average for the decade 1901-
1910.

Famous Hudson River.

The entire length of the Hudson
river is 300 miles. From Troy to the
mouth of the river in New York bay,
a distance of 150 miles, the river is
tidal, owing to the low grade of its
bed, by which the ocean tide is able
to back up. It is this lower tidal
navigable portion of the Hudson that
is of so much importance, and, of
course, the water is salt. It is regarded
as really an estuary of the sea. Above
Albany and Troy the river is a small
stream, and to its source the water
is fresh.

Achilles' Shield.

In early days some armor must have
been very beautiful. Homer, describes
the famous shield of Achilles, made
for him, so the story goes, by He-
phæstus, the smith of the mythical
inhabitants of Olympus. It was cov-
ered with pictures of cities and the peo-
ple in them, soldiers lurking in am-
bush, farmers working in their fields,
a vineyard, and wild animals. If the
shield itself was nearly as beautiful
as Homer's description of it, it must
have been a wondrous work of art.

Too Proud for Goat Hair.

Mr. Povich says that when he pro-
posed to buy little Pansy a goat hair
coat for her birthday, Mrs. Povich
said no, her child was too proud to
wear any hat or wild animal outfit.—

CHICHESTER'S PILLS

THE DIAMOND BRAND.
"Chichester's Pills" are the most
effective and reliable of all
pills. They are made of
purely natural ingredients
and are entirely free from
any harmful or dangerous
drugs. They are the only
pills that are guaranteed
to give relief in all cases
of constipation, indigestion,
and all other ailments of
the bowels. They are the
only pills that are guaran-
teed to be entirely free from
any harmful or dangerous
drugs. They are the only
pills that are guaranteed
to give relief in all cases
of constipation, indigestion,
and all other ailments of
the bowels.

Lived on Fish and Game.

San Francisco.—James H. Crawford
of New York, one of the two members
of the Stefansson Arctic expedition
who were left on Banks Island two
years ago, was here recently on his
way home, having arrived from the
far North on the auxiliary schooner
Herman. Crawford told of the hard
ships he endured during his longest
stay of two years on Banks Island
where he subsisted on fish and game
until rescued last August by the Rey-
nolds. His new attempt to reach the
continent in a small launch left by
Stefansson met with failure.

Many Countries Ahead of Us.

In normal times Norway, Sweden,
Denmark, Holland, France, Belgium,
Switzerland, Italy, Germany, Aus-
tria, Hungary, Spain and Portugal all
publish more books in proportion to
population than the United States
publishes, and their books have a
wider circulation.

Turkish Debtor's Home Exempt.

It is unlawful in Turkey to seize a
man's residence for debt, and suffi-
cient land to support him is also ex-
empt from seizure.

What the World Needs Now is Savers

Systematic saving is the safe
road that leads to wealth. There
are few short cuts.

Saving means energy, system,
perseverance. Thus judicious sav-
ing enriches your character, as
well as your bank account.

It is better to make your ex-
penses fit your income than to try
to make your income fit your ex-
penses.
